PROJECTS

Ecommerce App

ReactNative|React|Express.js|Node.js|MongoDB|TailwindCSS

<https://localestartup.vercel.app>

I'm currently working on my final-year project: an e-commerce app in React Native for buyers and a React website for sellers. The app simplifies shopping, while the website helps sellers manage their products. It focuses on a user-friendly design, smooth experience, and secure transactions.

ORGANIZER – TANCET MOCK TEST

React|Express.js|Node.js|MongoDB|TailwindCSS

<https://tancetquiz.vercel.app>

Organized a TANCET Mock Test for my college association and created a custom website to manage the process smoothly. Added secure login and data protection to keep the test safe and fair. Handled registration, question setup, and result processing, ensuring a hassle-free experience for participants. Focused on security and user privacy to make the exam reliable and easy to access.

V PRINT TECH

React|Express.js|Node.js|MongoDB|TailwindCSS

<https://vprinttech.netlify.app>

Built and deployed a scalable MERN stack website on Netlify with pages like Home, About, Services, Gallery, Infrastructure, and Contact. Added a feedback form storing user submissions in MongoDB for admin review. Designed a responsive UI using Tailwind CSS.
